

TEXAS INSTRUMENTS TI99/4A

DODGER

REQUIRES
32K RAM EXPANSION,
EXT. BASIC & DISC DRIVE

Help Roger the Dodger to do his favourite thing - run over the road, over the wall, across the river and into the flashing arrows!

Roger has to get fit somehow! Guide him with your trusty Wired Remote Controller over five lanes of traffic, a spider infested wall, a busy river, and finally into four flashing arrows.

Don't hang around - you've got a time limit of 30 seconds to complete each trip! When Roger gets to an arrow, the time will increase by 3 seconds and Roger will get 50 score points. When four arrows have been reached, your remaining time will be multiplied by 10 and added to your score!

The game starts at level 1 (a lot tend to do that!) and the traffic and monsters are slow. With each new level, the traffic and monsters speed increases, and more monsters and traffic are added.

Roger can run surprisingly fast when he's on the road but once you are in the river you'll notice he's a little slower as he's not the best swimmer!

The river is perhaps the most dangerous part of the game, it's home to hostile crocodiles, speedboats and giant squids!

Roger will move in 4 directions with Joystick-1, and will face each direction when on the road. He faces one way only in the river.

The author hopes you enjoy this mini-game.

Game features:

Game score & High score

Colourful graphics

Scrolling river

Tuba music (because Roger's fat)

Addictive gameplay

Forthcoming titles from Retrospect

Eric in Monsterland II

Help Eric the Elf rescue the Fair Maiden in an enchanted forest (again!)

Hunch Back

Official port of the Arcade game by Century Electronics.
