# Rescuer XB

**Pilot, get ready!** Comrades are trapped in enemy territory, awaiting rescue. Your helicopter can carry three passengers at a time. Pick them up and fly them to the nearest base.

But be warned! There are wandering aerial mines and patrolling tanks will shoot at you. The most dangerous enemy is the helicopter. Their pilots are skilled and show no mercy. Avoid having one above you... you cannot shoot upward! Your only chance is to leave the area or wait for them to become inattentive and crash into a wall.

There are three levels, each with multiple screens. To complete a level, you must rescue all men. Watch your fuel! Your unit has seven pilots, and no one is coming to your aid.

## Controls

Use joystick 1 or  
keyboard ESDX + B
